THE SCIENCE

OF SURVIVAL

VHS Survival Radio

Commercial, petro-marine and other vessels subject to GMDSS requirements can provide for superior safety at sea with these dependable VHF Survival Radios. Unlike other units, these high-visibility radios are buoyant and are capable of withstanding total immersion to 10 ft (3 m). They feature an easily replaceable battery, and can be stored in a survival craft for up to 5 years.

- // Multi-channel model features all maritime Simplex channels, including weather, with automatic selection of Channel 16 upon switch-on; international version available
- // 2-channel model transmits and receives on VHF channels 16 and 6
- // Simple touch pad for unskilled users/gloved hands
- // Can be attached via coiled lanyard, belt clip, and adjustable wrist strap
